Miss Helen Criner Honored In Dedication

The staff of the 1969 CATA-MOUNT, college yearbook, has honored Prof. Helen C. Criner, registrar, with this year's dedication. The text of the dedication follows:

"In 1947, there was added to the faculty of Potomac State College of West Virginia University a most able and efficient personality, Miss Helen Clare Criner, who has served the college as instructor in the commerce department, as assistant registrar, and since 1964 as registrar. Her training at West Virginia University and the University of Pittsburgh, where she received her B.S. and M.L. degrees respectively, and her experience in high school and college teaching prior to her coming to Potomac State fitted her admirably for the arduous duties she assumed at the college, for until 1966 she combined some teaching with her service as assistant registrar and later as registrar. Miss Criner's record at Potomac State College has been one of unflinching devotion and loyalty to the college and the students who comprise it.

Her office is always open and her services are available to prospective students and their parents for consultation, and her time and help are unselfishly given to students with

credit problems who are invited to seek her assistance in resolving such difficulties.

Her ability and efficiency are known beyond the limits of the local college community, and she is most highly regarded in professional and collegiate circles throughout the State of West Virginia.

The members of the CATA-MOUNT staff, aware of the indebtedness of the college as a whole and of the individual students to Miss Criner and grateful for her interest in the academic progress of all students, are honored to dedicate this volume of the CATAMOUNT to a good friend, an excellent teacher, and a valued administrator, Miss Helen Clare Criner."
